

Quebeck-Walling Utility District
281 West Bockman Way
Sparta, TN 38583
(931) 836-2147

Well User Agreement

In accordance with Quebeck-Walling Utility District's cross connection program, a private well or auxiliary water source may not be connected in any manner to the public water supply unless proper protection against cross connection is provided. Only Reduced Pressure Backflow Preventers or approved air gaps may be used for protection. These devices must have prior approval by the Quebeck-Walling Utility District. Customers not in compliance with this rule will have their service discontinued.

Please check appropriate box:

This serves as notification that a well is located on the property at the following address:

This serves as notification that a well is not located on the property at the following address:

Service address – Please type or print

I (we) understand and agree that this system is, and shall remain totally segregated from the public water supply, and no unwrapped or unauthorized cross connection, auxiliary intakes, bypasses or interconnections will be permitted without the written approval of the Quebeck-Walling Utility District.

I (we) understand and agree that should an auxiliary water supply be connected to the public water system at the above address, maximum cross connection control equipment in the form of an approved air gap or reduced pressure backflow prevention device shall be installed to protect the public water supply.
